# Introduction and notes for teachers

---

*Grammar Friends* is a six-level series of grammar reference and practice books for children aged from about six to about twelve, taking them from beginner to elementary (CEF A2) level.

The books can be used as supplementary support and resource material in class or at home and can be used alongside any primary course for beginners. Each unit introduces an element of English grammar through a picture or series of pictures with speech bubbles or captions. The grammar is then explained in simple language, with additional examples if necessary. This is followed by exercises increasing in difficulty from straightforward concept check exercises or formation exercises to complete sentence writing or sentence manipulation activities. At levels 5 and 6, each unit is six pages long and covers two or three grammar points.

The units can be used in any order, depending on the syllabus being followed. However, where there is more than one unit on a particular grammar topic you are advised to follow the sequence indicated by the numbers in brackets alongside the topic description (see the Student's Book contents list and the first page of each Student's Book unit).

Each topic is carefully broken down into separate elements, as is appropriate for primary pupils. For example, reported speech is first presented with two simple tense changes in unit 7 of *Grammar Friends 5*. Further tense changes are introduced in unit 10 of *Grammar Friends 6*.

Sometimes it is appropriate for pupils to see the bigger picture, so occasionally the grammar explanation will introduce elements of the topic that pupils are not expected to use in the exercises. Sometimes there are reminders of the grammar that they will probably have covered in earlier units. The pencil with the exclamation mark is used to signal these reminders as well as to highlight other important points.

## The contexts and situations

The grammar is presented within everyday contexts, usually related to a particular family or group of friends of the same age as the learners. The contexts or situations will probably be familiar to pupils from their own lives and from the other materials they use in class. Because the vocabulary is familiar, pupils will be able to concentrate on the grammar. At the lower levels the vocabulary sets in each unit are small, but at the higher levels it is assumed that pupils will have a wider vocabulary.

Teachers and parents can be assured that the contexts and situations are appropriate for primary pupils who are learning the importance of good moral and social values at home and at school. The action in the grammar presentations and in the exercises in

*Grammar Friends 5* and *6* centres on the main character, Ryan Casey, his four friends Martin, Tommy, Beth and Maddy, and the Casey family.

## The exercises

The exercises challenge pupils to make use of their understanding of the meaning of the grammar as well as their ability to manipulate grammatical forms. This is why pictures are important. With the limited linguistic resources at your pupils' disposal, pictures are a useful tool to help them differentiate between the meaning of *too* and *enough*, for example.

Pupils are expected to use correct punctuation in the exercises in *Grammar Friends 5*. They are also expected to use short forms wherever it is most natural to do so and to put the apostrophe in these.

Most exercises have a completed example for pupils to follow. Example answers are not given in exercises where pupils are required to write about themselves. In exercises where a list of words or phrases to be used is given, the word used in the example is crossed out to indicate that it has been 'used'. In exercises where the instruction is to 'look', pupils may sometimes have to look at an illustration elsewhere on the page, or on a facing page.

## The review units

After every three units there is a review unit. These are four-page units of exercises which provide additional practice of the grammar topics presented in the three preceding units. There is no new grammar material presented or practised in these units. They can therefore also be used as progress tests to check that learners have remembered what they have learnt.

## The Teacher's Book

This Teacher's Book contains the answers to the exercises in the Student's Book. There are also five photocopiable tests. Four of the tests are a single page and cover three units each. The final test is a review of the grammar covered in the whole book and is two pages long. The answers to the test questions are supplied.

## The CD-ROM

The student's CD-ROM contains simple interactive exercises with instant feedback that learners can do at home on their own. The exercises are grouped in sets of three units (in a similar way to the review units) and there are also multiple-choice tests on the grammar topics covered in the book.

## Notes on the units

### Starter Unit: My best friends!

- Exercise 3 is slightly more challenging revision of the past simple than the two previous exercises. Students must look at exercise 2 and extract the necessary elements from each frame in order to formulate sentences with the past simple and time expressions. Explain to students that they may not need to use all the information available in exercise 2 in order to complete exercise 3.
- Exercises 4 to 7 all require students to select the correct tense in order to complete the sentence. It will be a great advantage if students are confident doing this before they start working on the rest of *Grammar Friends 5*, as they will frequently be asked to choose the correct tense.

### Unit 1: Making things

- The first grammar presentation in this unit includes a box that refers pupils to the irregular verb table on page 96 of *Grammar Friends 5*. It is worth drawing your pupils' attention to this verb table, as they will find it useful throughout the *Grammar Friends* course, and they may need to turn to it regularly when completing exercises in many units of their books.
- In exercise 4, pupils are asked to make statements and questions. They will be able to work out which prompts require which structure by realising that the prompts including *ever* are questions and that the prompts including *never* are statements.
- Pupils should use the pictures in exercise 5 to work out the short answers to the questions that they write. Some answers are provided. They should then use this information to write sentences in exercise 6. The questions with negative short answers in exercise 5 will be transformed into negative sentences in exercise 6, and the questions with positive short answers will be transformed into positive sentences.

### Unit 2: On the stage

- Exercises 9 to 12 require students to choose between the present perfect and the past simple. Exercises 9 and 10 do this in the same situation. Note that exercise 11 deals exclusively with negative forms and exercise 12 deals exclusively with short answers.

### Unit 3: Carnival!

- Pupils will be very familiar with the concept of comparative and superlative adjectives by this point in their grammar learning, but this unit is the first time that longer comparative and superlative adjectives and *(not) as ... as ...* have been introduced.
- Exercise 1 revises some of the short adjectives with which pupils will be familiar whilst simultaneously introducing some common longer comparative and superlative adjectives.
- In exercise 9, pupils need to write question forms for the numbers that include a question mark.

### Review 1

- The first review unit covers all the grammar presented in units 1, 2 and 3 of *Grammar Friends 5*.
- The coverage of each exercise is as follows:
  - 1 – The present perfect (affirmative)
  - 2 – The present perfect (questions with *ever*)
  - 3 – The present perfect (short answers)
  - 4 – The present perfect with *for* and *since*
  - 5 – The present perfect and past simple
  - 6 – The present perfect with *already*, *yet*, *before* and *just*
  - 7 – The present perfect with *already*, *yet*, *before* and *just*
  - 8 – Comparative and superlative adjectives
  - 9 – *(not) as ... as ...*
  - 10 – *Too* and *enough*

### Unit 4: The world around us

- In exercise 12, pupils are required to think of their own short answers to the questions. It is sufficient for them just to answer with short answers, but if you would like to encourage further use of the target language, you could ask your pupils to make sentences telling what they *used to* or *didn't use to* do.

### Unit 5: The environment

- In exercise 4, pupils may prefer to go through the exercise writing the questions, then look at the pictures and return to the start of the exercise in order to answer those questions with short answers. The short answers they write in exercise 4 will dictate the sentences that are written in exercise 5.
- Exercise 8 provides pupils with two forms of practice of the present continuous with future meaning. First of all, they must identify which verbs are in the present continuous with future meaning, and then they must understand which verb is used in each case in order to write the base form of that verb as their answer.

### Unit 6: Day trip

- In exercise 1, pupils must decide who would have said each of the statements: Ryan or Martin. In order to work this out, pupils must first read and fully understand the captions included alongside the artwork at the top of the page. Some of the statements in exercise 1 are not explicitly covered in these captions, so pupils must use their powers of deduction in order to answer the questions.
- Note that the noun 'the family' is treated as a singular noun throughout the *Grammar Friends* series. In frame 2 of exercises 8 and 9, you may need to remind pupils of this, as only the singular is given as a correct answer in the answer key.

## Review 2

- Exercise 4 may be difficult for some pupils. It might help to do the first two frames as a whole class with one or two more confident students before allowing the rest of the class to continue with the exercise individually.
- The coverage of each exercise is as follows:
  - 1 – The past continuous (affirmative)
  - 2 – The past continuous and past simple (affirmative)
  - 3 – The past continuous and past simple (questions)
  - 4 – *Used to*
  - 5 – *Will* and *won't* statements
  - 6 – *Will* and *won't* questions and short answers
  - 7 – The present continuous with future meaning (all forms)
  - 8 – *Be going to* (affirmative sentence completion)
  - 9 – *Be going to* (negative)
  - 10 – *Be going to* (questions)
  - 11 – *Be going to* (sentence writing)

## Unit 7: First aid

- In exercise 4, pupils must decide which of the statements in the wordpool are most likely for each of the people listed in the exercise. Pupils need to understand the statements, then convert the appropriate statement into reported speech.
- In exercise 8, there is no specified 'speaker' for numbers 2, 5 and 8. Monitor the progress of your pupils closely with this exercise. When there is no specified speaker, tell students to mark '–' in the speaker column (see answer key). Some of the items in this exercise are intentionally challenging in order to really test students' understanding and use of reported speech.

## Unit 8: Our favourite food

- In exercise 6, pupils must make both clauses of the sentences in exercise 5 negative and write complete sentences themselves. Monitor your pupils when they do this exercise, and make sure they include a comma after the *if*-clause in each sentence.
- In exercise 7, students are given prompts to write first conditional sentences. In some frames they must write the *if*-clause at the start of the sentence and in other frames they must write the *will/won't* clause first. Once again, pay attention to their use of the comma after the *if*-clause and help your pupils correct their sentences as they go along.

## Unit 9: Possibilities

- Exercises 10 to 12 all refer to the character of Ahmed, who appears in the second grammar presentation in this unit. In exercise 10, pupils must decide whether to use an affirmative or negative form to complete each statement. In exercise 12, they must read the information provided about Ahmed in exercise 10 in order to be able to answer the questions they will have completed in exercise 11.

## Review 3

- The coverage of each exercise is as follows:
  - 1 – Reported speech with pronouns
  - 2 – Reported speech with pronouns and time expressions
  - 3 – *Said* or *told*
  - 4 – First conditional (affirmative and negative)
  - 5 – First conditional (affirmative and negative)
  - 6 – First conditional (questions)
  - 7 – *May*, *might* and *could*
  - 8 – *Have to*

## Unit 10: Life in the past

- Before pupils start working on any of the exercises in this unit, you might like to draw their attention to the spelling of *no one*, to avoid mistakes later on. Monitor their spelling of this word throughout this unit.
- After the second presentation, exercises 9 to 11 progress gradually from a simple concept-check exercise in exercise 9, to sentence completion in exercise 10 and finally on to sentence construction in exercise 11.
- Throughout the exercises practising question tags, pupils must remember to include question marks at the end of sentences wherever they are not provided.

## Unit 11: Making a film

- Pupils may need to refer to the verb table on page 96 of *Grammar Friends 5* throughout this unit. You may wish to point to the tinted box on page 80 as a reminder that they are able to turn to page 96 for help if they need it.
- Before your pupils start exercise 5, make sure they know that *news* in number 9 is an uncountable noun.

## Unit 12: Famous inventions

- The answers to the questions in the presentation in the second grammar box are as follows:

*The first plane was invented by Orville and Wilbur Wright.*  
*Television was invented in 1925.*  
*The car was invented in Germany.*  
*The telephone was invented on 10th March 1876.*

## Review 4

- The coverage of each exercise is as follows:
  - 1 – Indefinite pronouns
  - 2 – Indefinite pronouns
  - 3 – Question tags
  - 4 – The passive (present simple)
  - 5 – The passive (present simple) sentence transformation
  - 6 – *By* and *with*
  - 7 – The passive (past simple) with *by* and *with*
  - 8 – The passive (present simple and past simple)
  - 9 – The passive (present simple and past simple) questions
  - 10 – The passive (past simple) with wh-questions.

## Unit 8

1 If you eat healthy food, you will be strong and have lots of energy. Healthy food doesn't have much sugar, salt or fat and it isn't made with additives. If you eat well, you won't get ill very often and if you have lots of fruit and vegetables every day, you'll get all the vitamins you need to grow. But you'll get tired easily if you eat too much junk food, and if you're tired, you won't do as well at school.

## Unit 9

1 Hi! My name's Sally Megson. I'm 10 and I go to school, and my hobbies are drawing and painting. I think I'm quite good at art, and next year I may study art at a special art school. The school is a long way from my home so I might have to take the bus to get there. I could be better at art if I had more time to practise, and my art teacher says I may win an award for my drawings when I'm older. I might not win it this year, but things could be different next year!

# Grammar Friends

For 6 – 12 years

The step by step grammar presentations in *Grammar Friends* introduce form, use and meaning in a way that even young beginner learners can understand and remember. The series is an ideal supplement to any elementary course book series.

- **Builds accuracy and confidence:** graded written exercises provide practice and reinforcement.
- **Puts the focus on grammar:** familiar contexts and situations, using basic vocabulary, enable pupils to concentrate on learning grammar.
- **Revises and consolidates:** regular revision units provide extra practice.
- **Interactive practice:** the student CD-ROM features additional exercises and tests for even more practice at home or independently at school.
- **Photocopiable tests:** included in the Teacher's Book, plus answer key.

## Beginner – Elementary (A2)

*For students preparing for the  
Cambridge ESOL Young Learner's exams:*

Starters: Grammar Friends 1 and 2
