Unscramble the following sentences.

١. is /carpet /well-known / for / Iran /its

٢. I there /good / as /The meal /wasn't as /the last had /meal.

Reading

Canning is a popular way to preserve food. This is the process of canning green beans.

Step 1 First, the beans are picked in the fields. Then, they are transported by trucks to the factory.

Step 2 The beans are washed and cut up. Next, they are quickly put in boiling hot water. This keeps them green and firm and removes air.

Step 3 The beans are then inspected. Only beans that are the correct size, colour and quality are selected.

Step 4 After that, cans are filled with beans. Hot water is added to remove air and salt is added for flavour.

Step 5 Then the lids are put on and sealed. The cans are cooked at high temperatures for about 12 minutes.

Step 6 Finally, the cans are labelled and transported to shops.

Read the text and answer the question.

١. What is the popular way to preserve food?

٢. How beans are transported to the factory?

ϣ. What keeps beans green and firm?

Ϙ. Why is hot water added to cans?

ϙ. How long are cans cooked at high temperature?
