READING

Who invented films?

It's difficult to say .Lots of people played a part in the development of the cinema .a man called Muybridge made the first moving picture in 1878.it was a film of a horse running and it was only a few seconds long .By 1895, other people had invented various machines for showing moving pictures .but many of these could only be watched by one person at a time. The development of machines that could project films onto a screen was important .Thomas Edison was one of the first to show very short films to audiences of 20 or more people. His films showed acrobats and dancers performing, or everyday events like a man sneezing!

Answer the question by true or false(3)

52. Edison's films showed singer performing. True false
53. The word audience means the people who watch film or listen to speech .or readers a magazine and newspaper. True false
54. By development of machines ,machines got better. True false
