Reading

My future invention

I think we will have special shoes like these in the future. They will look like trainers and they will be very comfortable. Everyone will be able to wear them, even children and old people. The shoes will have wheels, like rollerskates, so they will help us to move around quickly. They will also lift us off the ground when we want to jump over things or fly to a different place. These shoes are a great idea because we won't need bikes or cars to travel around the town. They will be good for the environment.

Read the text and answer the questions.

1. *What are shoes like in the future?*
2. *Why are these shoes great idea?*
3. *Can old people use these shoes?*
4. *How do these shoes help us ?*
