READING

G: Millionaires and their Secret Homes.

Some millionaires like living in the center of the world's capital cities. Others prefer to live somewhere quiet and private. Here are three special millionaires' homes: one on the beach, one in the mountains, and one in the middle of a tropical forest.

The first home is a tree house, built high up in the trees of a tropical rain forest. But it's no ordinary tree house. It's on two floors, and there are two bathrooms and three bedrooms. The top floor of a house is a rooftop terrace. This is the "breakfast room" where you can have your coffee and cornflakes with the monkeys.

The second home is an old monastery. Built high on a rock. The only way to get there is by helicopter. There's a helicopter pad on the roof, next to the swimming pool. It's not very big: only three bedrooms, a living room, two bathrooms, a kitchen, and a gym.

The third home is a beach house, but a beach house with a difference. It has a private beach, of course. In fact, it's built on its own private island. This home is actually a collection of small houses - a little village. In fact, there are four swimming pools, eight tennis courts, and twenty horses in the riding stables.

H: Match each sentence with a home.
