Reading.

Mali is the hottest country in the world. How do people live in Mali, West Africa, where the temperature is often 122°F (50°C)? John Baxter a journalist in Mali, says “people get up very early and they don’t move very much in the afternoon”. Surprisingly they wear a lot of clothes (usually cotton) as this helps them not to get dehydrate. Houses are very hot and don’t have any air-conditioning. The best place to sleep is on the roof.

Yakutia is the coldest place in the world. Can you imagine living in a place which is four times colder than your freezer? This is Yakutia in Siberia, where in the winter it is often -58°F (-50°C) or lower. Valeria, a housewife, says “after a few minutes outside your nose fills with ice”. It snows a lot and there is always a lot of ice and snow on top of the houses. The most dangerous time is spring, when the ice falls. It can kill people. The winter is very boring because we can’t go out very much.
