What do you eat for breakfast? 2 Listen and read. 60 09

What do you like for breakfast?

We asked four children about their favorite breakfast foods.

Hi. I'm Abd Allah from Egypt. I sometimes eat bread with jam or cheese. But usually I eat fuul and bread for breakfast. Fuul is mashed beans. It's great with olive oil and flat bread. I sometimes have an egg with it, too.

My name's Pete. I'm from the U.S.A. For breakfast, I usually have a bowl of cereal with milk, and then toast with butter. We have lots of different cereals at home, but my favorite is cornflakes.

I don't have a very big breakfast because I eat lunch early at school.

Hi, everyone. I'm Huong and I come from Vietnam. For breakfast, I usually have noodle soup. My grandma makes it every morning. Sometimes, I have xoi. These are balls of rice with beans. They are wrapped in coconut leaves and are really yummy.

Hi. My name's Mariana and I'm from Mexico. My favorite breakfast is huevos rancheros: this is eags cooked with tomato and chili pepper sauce. Under the eggs is a tortilla, which is a corn pancake. I always eat a big breakfast because we don't have lunch at school.

2 Listen and read. 6 21

LIFE IN THE ARCTIC

The Arctic is bigger than the continent of North America. It is a cold and wild place. Four million people live there and most are Inuit. You can find them in Alaska (U.S.A.), Canada, Greenland, and Russia.

In the winter, there is usually very heavy snow and the temperature is about minus 30 degrees. The sky is dark all the time, even in the day.

Most children ski to school or go by snowmobile. Other children wear special snow shoes and walk to school.

It is impossible to grow fruit and vegetables in the snow, so Inuit people usually eat meat and fish. Hunting is important and everyone shares the food together, often eating the meat raw.

In the summer months, everything changes. Most of the snow melts and the sky is light all day and night. The people can then also eat seaweed and berries.

3 Read again and complete the table about Inuit people.

- 1 What countries do they live in? U.S.A., Canada

Dinosaur data

Dinosaurs lived on Earth for millions of years and then they disappeared.

Scientists study dinosaur bones to find out how they lived and what they looked like.

There were more than 700 different types of dinosaur! Some dinosaurs ate plants and others ate meat. Some walked on two legs and others walked on four legs. Some could fly and others lived in the ocean. We know dinosaurs were all different, but no one knows what color or pattern they were. This is because there is no dinosaur skin left to study. The most famous dinosaur is the T-Rex (Tyrannosaurus Rex). It was bigger than a house! Its strong tail helped it move quickly. But no one knows how fast it could run. Its teeth were 36 centimeters long and it ate meat. You can see T-Rex bones in some museums.

- 1 What do you know about basketball? 2 Listen and read. 🚳 36

Can you jump really high and bounce a ball really fast? Then basketball is the sport for you!

Today people play basketball outdoors, too, and you can often find basketball courts in parks.

So tru it! You just need a ball, some friends, and a basketball hoop.

Basketball started in 1891 in Canada. It is very cold in the winter and students wanted a sport to play inside where it was warm. So, a P.E. teacher named James Naismith invented a new sport: basketball.

> Naismith put fruit baskets at the ends of the court. The players scored points by throwing balls into the baskets.

One of the tallest basketball players is Sun Ming Ming, who is 236cm tall. But you don't have to be tall to play basketball. A very famous player, Muggsy Bogues, is only 160cm.

- Have you seen any shadow puppet theater?
- 2 Listen and read. 69 46

Shadow puppet theaters first started in China thousands of years ago. But they are still popular today in many parts of the world.

The puppets are usually made from animal skins. These shadow puppets are camel skin and they come from Indonesia.

It is dark and a bright light shines on the puppets to make shadows on a screen behind them. A person uses wooden sticks to make the puppets move. This person also does the talking. Sometimes, there are other people singing or playing instruments.

Hand shadows

You can do shadow theater at home, using your hands! You will need a white wall and a bright light.

To make a tiger:

- Make a "C" shape with your left hand.
- Put your right hand on top of your left hand.
- Lift up your right thumb a little for the tiger's ear.
- Make the tiger's mouth move by moving the fingers and thumb on your left hand.

Listen and read. 🚱 49

What do you know about life on Earth thousands of years ago? Fossils give us some clues. Fossils are shapes in rocks that show the animals and plants that lived at this time. To be a fossil, the shape has to be at least ten thousand years old. Sometimes fossils show the shape of the animal, or its skeleton. Other fossils show an animal's footprints, eggs, or nest. Fossils can be of dinosaurs, whales, or fish. Some fossils are 500 million years old. Fossils tell us about the past. We can learn about types of rocks, and we can learn about animals and plants that lived a very long time ago.

You can find fossils in most parts of the world. You can find them on mountains and in oceans. You can find them in deserts and on beaches. You can also find them under the ground.

There won't be much land, so there will be big cities underwater, and we will travel in submarines. I think some houses will be underground, too, but I won't live in an underground house. I'll live in an underwater house with glass walls. I will see fish swimming around!

I agree with Rob. There won't be many parks or green spaces. There will be lots of cars and planes, so pollution will be very bad. We won't have a lot of fresh food, so people will eat lots of junk food. There will be food pills, too.

I disagree. I think the world will be a cleaner place in the future, because we won't use gas or other fossil fuels. We will use energy from the sun to power our cars and houses. I think cars will be very fast and some cars will fly, too!

I think computers will be very small in the future. We will have computers in our clothes and we will use our voices to control them. We'll learn lots of interesting things. We will use virtual reality to study. We won't go to school, but we'll meet our teachers and friends in cool virtual places to learn about the world.

August 20th

14 Hilltop Road Boston

Dear Dan, How are you?

We had a really unusual start to our summer vacation this year. My family and I were driving to Florida. It was a long journey but it was comfortable and we were happy. Suddenly, we heard a bang. The car stopped and Dad couldn't start it again.

It was night and we could see a light in a house. We walked to the house and asked the man there for help. The man said, "I will fix your car tomorrow. I can take you to a hotel tonight. Follow me."

On the way to the hotel, I was disappointed because the town seemed small and unexciting. But in the town center, we saw some fireworks and heard some music. There was a festival and a fair! After we left our luggage at the hotel, we went and joined the festival. We had a fantastic evening and it was a great start to our vacation!

Write soon to tell me about your vacation.

Most people have seen movies or TV shows with robots in them, but can you imagine a world with real robots? Would you like a robot to cook your dinner, clean your house, or play soccer with you? There is a robot that can. Its name is ASIMO and it is from Japan.

ASIMO is the first robot to walk and run like a human, and it can even climb stairs. ASIMO works as the receptionist at the Honda offices in Japan. It meets visitors, talks to them, and takes them to the correct rooms. ASIMO can also understand human gestures. So when visitors wave, it waves back!

In the future, robots will also do dangerous jobs such as putting out fires, rescuing people, or going to dangerous places. They may also teach in schools and help with operations in hospitals. Special robot arms already make cars, and in the future, more things in factories will be made by robots.

Everes Expeditions

Mount Everest is the highest mountain in the world. It is named after George Everest, the first person to record its location and height.

The first people to climb to the top of Mount Everest were Sir Edmund Hillary and Tenzing Norgay.

Tenzing was a mountain climber from Nepal and Hillary was an explorer from New Zealand. They were part of a large expedition including 362 porters and 20 auides.

The expedition started in March 1953. It took the team many weeks to get close to the top of the mountain. Some of the climbers had to give up when their equipment didn't work and they couldn't get enough oxygen, but Hillary and Tenzing continued the expedition.

There was heavy snow and freezing winds, but by May 28th, Hillary and Tenzing were near the summit. They slept in a tent that night.

The next morning, Hillary's boots were frozen solid outside the tent! It took two hours to melt the ice and get the boots warm. Hillary and Tenzing climbed the last part of the mountain. They used ice axes to pull themselves up the icy rocks. On May 29th, they reached the summit. They stood on the highest point on Earth. Then Hillary took

some photos and they buried some chocolates in the snow for future climbers. They only stayed at the top of Everest for about 15 minutes, because it was difficult to breathe. There isn't much oxygen at 29,028 feet! Since then, many people have

climbed Mount Everest. The oldest person to reach the summit was Yuichiro Miura, from Japan. He was 80 years old. The youngest person was Jordan Romero, from the U.S.A. He was 13.

AUSTRALIAN ART

The Aboriginals have lived in Australia for 50,000 years. Their art is the oldest type of art in the world.

The Aboriginal people told stories through art. The stories were very old and the paintings helped to pass them down from parents to children. The Aboriginals cut into rock to make pictures, painted on cave walls, and even painted on their bodies.

The stories were secret. Only chosen people could know the stories. For this reason, the Aboriginals used special symbols in their pictures. These symbols showed the different things and colors that existed around them.

An important type of Aboriginal art is dot painting. The dots are codes that only Aboriginal people can read to understand the story. The dots are made by dipping sticks into paint.

Now Aboriginal people often paint onto canvas, making it easier for people to see and admire their work.

Reading

- Look at the text and pictures below. Say three ways to stay healthy.
- 2 Listen and read. (109

We all want to be fit and healthy, so here are some tips to help.

Get lots of exercise

Watching TV or playing computer games won't make you fit, but playing sports will. You can join a club or play with your friends in a park. If you don't like team sports, you can walk to school, go swimming, or try skating instead. Regular exercise makes you feel stronger and gives you more energy.

Eat a healthy diet

Candy, chocolate, and chips are fun to eat sometimes, but it is not good to eat them every day. These foods contain too much sugar, fat, or salt. Make sure you eat vegetables, such as cabbage, with every meal, and plenty of fruit, too. Fruit and vegetables help you stay healthy and grow strong.

Drink lots of water and milk

Water or juices are better for you than soda because soda contains lots of sugar. Eating a lot of sugar is bad for your teeth. One can of cola contains about nine teaspoons of sugar! Milk is good because it contains lots of calcium. You need calcium to help your 206 bones to grow and keep your teeth strong.

There is this much calcium in a serving of ...

- 1 a glass of milk
- 2 two sardines
- 3 cabbage
- cheese
- 5 yogurt
- 6 beans
- 3 Underline these words in the text. Guess their meanings and then check them in the Workbook 4 Dictionary (page 136).

A very strong earthquake hit China on May 12th 2008. Lin Hao, a ten-year-old pupil, was very brave when his school collapsed in the earthquake. After climbing out of his school, he helped out two of his friends. Lin's arm hurt a lot, but he still

carried his friends. Because Lin was a hero of the earthquake, he carried the Chinese flag at the opening of the Olympic Games in August 2008.

Girl saves family

Early one morning, on December 26th 2009, a fire started at the home of Emilee Hartley in Maine, U.S.A. The fourteenyear-old girl was asleep, but the smoke alarm woke her up and she saw smoke in the kitchen.

Emilee ran upstairs to wake up her parents and three-year-old brother. She carried her brother downstairs while her parents called the firefighters. They couldn't get out of the door, so Emilee broke a window to carry her brother to safety.

The family home was destroyed, but because Fmilee was so brave, no one was hurt.

THE GOLD RUSH

San Francisco is a big city in California, U.S.A. In the past, it was a tiny village. Then people found gold there! Between 1848 and 1855 over 300,000 people traveled to California to look for gold. This was the Gold Rush.

It started when James Marshall, who worked in a mill in California, saw little bits of shiny yellow metal in the river. He was very excited to find it was gold. Soon people started to arrive in California. They used special pans to look for the gold in the rivers. This was called *panning for gold*.

These people came from all around the world. Some were Americans, but many were Mexican, English, and Australian. The people looking for gold were called *prospectors*. Many traveled by ships and some traveled overland on horses and wagons.

After a few years, most of the gold from the rivers was gone.

Although some prospectors got rich, most found very little gold and were very poor.

Three Wishes

Once upon a time, there was a poor fisherman. The fisherman's wife was usually angry because he didn't catch many fish.

One day, the man was fishing when suddenly, a little fish jumped into his net.

"My wife will be happy now," said the man, "we will eat this fish for dinner."

But then the fish spoke. "Please throw me back in the sea," it said, "and I will give you three wishes."

The fisherman was very surprised. "Great!" he thought. "I can make my wife very happy with three wishes."

Later, he told his wife about the fish. She wasn't happy.

"Fish don't speak, you silly man!" she said. "And now there isn't any fish for dinner."

The fisherman was hungry, and he looked at his dinner of bread and water.

"I wish we had sausages instead of bread and water," he said.

Suddenly, a plate of delicious sausages appeared on the table. He was very happy and started to eat.

But his wife shouted angrily, "Why didn't you wish for something better, like money or gold? You silly man! I wish those sausages were on the end of your nose!"

The man looked down at his nose and screamed. All the sausages were on the end of his nose.

The wife pulled and pulled, but she couldn't get the sausages off the man's nose. They had to use their last wish.

"I wish," said the fisherman sadly, "for the sausages to go away." Suddenly, the sausages disappeared.

Now they had no sausages and no wishes. And the fisherman never saw the fish again.
