A*List

About

1 Unit-A&B

introduces twenty target words in each unit, organized into Parts A and B with ten words each.

2 Word List

presents each word with a descriptive image, a phonetic transcription, and an example sentence. Synonyms and antonyms are also included to help students expand their vocabulary. A writing line is provided as well, allowing students to practice writing each word themselves.

3 Use the Words

A practices synonyms and antonyms, and British English words are marked as BrE.

B matches definitions with target words to understand word meanings.

C completes sentences using target words in context.

4 Reading for Vocabulary in Context

recycles the unit's target words in a short passage. It allows students to review word usage in context, practice comprehension, and build background knowledge of the topic.

5 Questions 1-3

checks students' understanding of the passage through comprehension activities.

Questions 4-6

provides paraphrasing activities that help students review the target words in context.

Questions 7-10

offers practice in using the target words from the passage through fill-in-the-blank activities.

Review

helps students practice vocabulary, grammar, and other skills from previous lessons every 12 units.

Mini Word Book

provides a total of 480 words organized by unit, with each entry including the part of speech and an English definition.

Contents

Unit	Topic	Word List	Reading for Vocabulary in Context	Page

1 We _____ by planting trees.

a made a difference b imagined

2 I want to be a _____ and build big cities.

a coder b constructor

3 She _____ flying a rocket into space.

a imagines b career

4 Ms. Cole _____ science to her class.

a advanced b teaches

5 I'm curious about my _____ job.

a future b high-tech

Reading for Vocabulary in Context

Jobs of the Future

TR 03

Today, the students are excited to talk about future careers. "What jobs will we have when we grow up?" asks Mr. Woods. Sarah raises her hand and says, "I want to be a robot maker! I want to build helpful robots for people in factories or hospitals." Jake dreams of becoming a coder. "A coder makes games and tools for people using computers, tablets, and smartphones," he explains. Grace hopes to be an environmentalist who protects our planet. "We need people to use clean energy, plant trees, and take care of nature and animals," she adds.

Mr. Woods smiles and gives some advice. "Future jobs will use AI technology in advanced ways. You might become a drone designer, an astronaut exploring space, or even a reporter who uses smart tools to write stories for an online newspaper." He says, "Future jobs may look different from today's work, but they will still need creative and curious people like you."

Questions 1-3

For each question, choose the correct answer.

1 What job does Sarah want in the future?

a a teacher b a reporter c a robot maker

2 What does Jake say a coder can do?

a make games and tools for people who use devices
b write stories for newspapers
c build robots for hospitals

3 What does the teacher say about future jobs?

a They will stop people from using smart tools.
b They will use AI technology in advanced ways.
c They will never change from today's jobs.

Questions 4-6

For each question, write the correct answer to complete the sentence.

4 The students are happy to discuss future jobs today.

= Today, the students are excited to talk about future _____.

5 With a smile, Mr. Woods gives a suggestion: future jobs will use improved AI technology.

= Mr. Woods smiles and gives some advice. "Future jobs will use AI technology in _____ ways."

6 Careers in the future might not be the same as today's jobs, but they will continue to require people who are creative and curious.

= _____ jobs may look different from today's work, but they will still need creative and curious people like you.

Questions 7-10

For each question, write the correct answer. Write one word for each gap.

Example 0 Students

0 Students talk about future careers. Sarah wants to be a robot maker, and Jake dreams of becoming a **7** _____. Grace hopes to be an **8** _____ who protects nature. Mr. Woods says that future jobs will use AI **9** _____ in advanced ways. He mentions drone designers, astronauts, and reporters using smart tools. He adds that **10** _____ work may look different, but creativity and curiosity will still be important.

future	advice	environmentalist	constructor
ways	coder	technology	astronaut

Unit

02-A Getting Around

Listen and learn.

TR 04 1 ☐ 2 ☐ 3 ☐

0981

crosswalk

[krá:swà:k]

n. a place for people to walk safely across the street
= crossing, BrE. pedestrian crossing
