Reading .

Read and put True or False. (3 points)

Dolphins are very interesting Marine animals. They are very friendly and safe. They love playing with people. There are many kinds of Dolphins. Dolphins are very social animals. Many dolphins travel in groups called pods. Some of them have 8 teeth and some have 250 teeth. They use their teeth to catch their food. Dolphins eat other smaller fish, but they are not just fish. They eat squid, too, and some dolphins eat small sea animals like seals and penguins. They are very clever. Dolphins cannot breathe under water, but they can stay under water for about 15 minutes. They have names. Their names are special sounds. They use the sounds to call their friends and family. Dolphins cannot live in polluted or salty water. They can only live in clean water. Dolphins give birth to live young and nurse them with milk.

1. What is the reading about?

- a. Fish
- b. Dolphins
- c. Penguins
