Read the article. Then read it again and check the true statement for each item.

Laughter Is the Best Medicine

There's a saying in English: "Laughter is the best medicine." Now studies suggest that this saying might really be true.

Everyone knows that stress is bad for your health. It can give you headaches. It can cause heart attacks and other serious medical problems. When we laugh, our stress is reduced. Then the body is able to fight disease better.

People who laugh a lot have lower blood pressure than the average person. When a person laughs, his or her blood pressure goes down. When this happens, breathing becomes deeper, sending more oxygen and nutrients throughout the body. Also, laughter pushes out more air from the lungs than it takes in, which helps to clean out the lungs.

Laughter is good exercise, too! Some doctors have estimated that a person can burn as many calories by laughing as by riding an exercise bike for several minutes.

Laughter can even help improve your memory. When you laugh, your muscles relax and psychological stress is reduced. This keeps the brain alert and allows you to remember more information.

Some doctors are beginning to prescribe laughter along with certain medications and a healthy diet. It's easy to include laughter in your daily schedule. Just read something humorous or watch a funny video. And who knows—it might save your life!

**Example:**

- ☒ Laughter can help reduce stress.
☐ When you laugh, you can't have any stress.

- (1) ☐ Laughter can give you headaches.
☐ Laughter can help your body fight disease.
- (2) ☐ Laughter can cause high blood pressure.
☐ If you need to lower your blood pressure, laughing might help.
- (3) ☐ It's better for your health to laugh than to ride an exercise bike.
☐ Laughter is one form of exercise.
- (4) ☐ You will remember things better if you laugh after you learn them.
☐ Laughing keeps your brain healthy so you can remember more.
- (5) ☐ Laughter is better than medicine.
☐ Laughter is one good way to improve your health.

ESSAY

29. ANS:

a. (*Sample response:*) I have always used conventional medicine. I usually like it because it makes me better when I'm sick. But one thing I don't like is that doctors always want to give me a prescription. Sometimes I think people could try to heal themselves other ways.

b. (*Sample response:*)

(1)

Me: Could you recommend a doctor? I'm sick.

Friend: There's one not far from here. Her name is Dr. Melendez.

(2)

Me: Hello. I wonder if I might be able to see the doctor today. I'm sick.

Receptionist: Let me check. Could you be here by 2:15?

(3)

Receptionist: You must be Nicole. You're here to see Dr. Melendez, aren't you?

Me: That's right. I've been feeling sick.

(4)

Me: My stomach is killing me.

Doctor: That must hurt. Let's have a look. I think it's a good idea to take an antacid.

Me: Are there any side effects?
